Weekly Fitness Program

Seve Todd | Plyometrics, Lower Body & Core

Weekly Structure: BUILD Power, Stability and Control

Training Focus:

- Lower-body strength and single-leg stability
- Plyometrics with an emphasis on soft, controlled landings
- Core control and anti-rotation for the golf swing

How the Week Works:

- Days 1–3 repeat as Days 4–6, then Day 7 is active recovery
- Day 2 / 5 has no plyometrics, so jumping is spaced through the week

Rest Rules:

- Plyometric sets: 60–90 seconds rest between sets
- Strength and core circuits: 30 seconds rest between exercises, 90 seconds after each circuit
